

WHO? WHAT? WHY?

PART ONE

By: Jennifer Walker

Children are curious and ask many questions, especially during the preschool years. They inquire about physical differences and about how they joined their family. As parents, we need to be well informed and prepared for these conversations. It is our responsibility to be delicately truthful and share with them the personal and sometimes difficult details of the who, what and whys of their little lives. In doing so, it can be helpful to have added tools to aid in facilitating positive, reassuring communications and the use of pictures and words can be a tremendous help in doing so.

The below is just a *short list* of the many adoption related resources available to both parents and children of all ages and circumstance. *It is to be taken only as a casual guideline, where all titles are open to positive or negative interpretation, as in most artistic mediums. In regards to any child books listed, I encourage parents to pre-read and independently judge for suitability and appropriateness prior to sharing with child.*

Those listed are available online through: Chapters and/or Amazon but many can also be found and borrowed from a local library.
